EDUCATION

University of Wollongong

Bachelor of Computer Science (Cyber Security Major)

- Capstone: Whale Logistics Customer Service AI Chat-bot
- WAM: 84%

Wollongong, NSW

Expected Graduation February 2027

Coding and Cybersecurity Study Tour

University of Wollongong – New Colombo Plan

Completed at Jinan University, China

Signed by: Professor Jian Weng and Distinguished Professor Willy Susilo

Guangzhou, China

2024

Figtree High School

ATAR received: 84.20

- English Standard: 77/100, Band 4
- Industrial Technology: 94/100, Band 6
- Mathematics Advanced: 79/100, Band 4
- Physics: 84/100, Band 5
- Software Design and Development: 80/100, Band 5

Wollongong, NSW

2023

WORK & PROJECT EXPERIENCE

Total Security Services

Application development, IT

- Programmed and configured security devices including card readers and CCTV systems.
- Developed internal tools including an analysis web platform and a fleet digital logbook system.
- Provided technical support across hardware, software, and networking issues.
- Configured and maintained Apache2 web servers in a Linux environment.

Wollongong, NSW

December 2024 – Present

KFC

Causal Cook Position

- Maintained high efficiency in a fast-paced, team-based environment
- Followed strict food safety and hygiene standards
- Developed strong teamwork, communication, and reliability skill

Wollongong, NSW

February 2024 – Present

Website Building

HTML, CSS, JS, Python, MySQL, PHP, Linux, Apache2

- Designed and developed simple full-stack websites
- Built responsive front-end interfaces using HTML, CSS, and JavaScript
- Deployed and maintained websites on Linux servers using Apache 2

Wollongong, NSW

January 2023 – Present

Game Development

Unity Game Engine, C#, Blender

- Developed a VR application “New Home” to visualise and modify housing designs, improving client understanding of building plans.
- Led development and creative direction for “Dead Deliverance”, an open-world zombie survival game project at university.
- Published a prototype 3D hyper casual mobile game in high school.

Wollongong, NSW

December 2022 – Present

Tinkering and Hardware Development

Raspberry Pi, C, Linux, 3D printing, Bash Scripts

- Designed and prototyped a DIY 3D-printed phone, experimenting with hardware integration and embedded systems.
- Re-purposed and upgraded desktop systems, improving performance and extending hardware life cycle.
- Built a retro gaming console using Raspberry Pi (RetroPie), including custom controller integration.
- Explored low-level programming, Linux systems, and hardware-software interaction.

Wollongong, NSW

December 2017 – Present

SKILLS, ACTIVITIES & INTERESTS

Strong skills in C#, Python, C, JavaScript, and HTML/CSS, with experience using tools such as Unity, MySQL, Linux, Apache2, Git, and Raspberry Pi. Knowledge of IT systems including server setup, technical support, and basic networking. Experience in web development, VR projects, and hardware prototyping. Completed *C# Programming for Developers* certification, with a focus on object-oriented programming and application development. Member of the Bits & Bytes computing club, with involvement in open-source projects (Sourcecey, KatVR). Interests include MMA, cycling, gaming, and working with Linux and open-source systems.
